

OUR SERVICES

Weaver SecurShred provides a wide array of services to assist you with protecting your most critical information. We can help you meet the strict compliance requirements for protecting confidential information.

Facility-Based Services

SecurShred is a state of the art, facility-based information destruction business with

- High-tech security cameras that provide 24/7 recording of everything that happens inside our facility
- A high-capacity shredder that shreds your information to the IRS standard of 5/16” strips (half as wide as most mobile and commercial “strip” shredders and much smaller than “pierce and tear” shredders), and
- Immediate co-mingling and baling of your shredded materials that makes it virtually impossible to reassemble.

Regular Scheduled Services

SecurShred will work with you to design an information destruction program specific to your business. We will place containers in the right sizes and quantities in your place of business that will be exchanged on a schedule that best meets your needs.

Purges

Call SecurShred to assist you with periodic file and/or storage room clean-outs!

Additional Benefits and Services

- Media Destruction Services (including CDs, DVDs, hard-drives, X-rays, etc.)
- Drop-off Services
- The capability to allow you to witness the destruction of your documents
- Free Containers
